

Conflict of Interest Statement

The Association of Show and Competition Judges is made up of a membership of professional and trained judges and judges' trainers, etc, and our aim is to work openly and transparently. However, there will be occasions where we might need to adopt different roles.

Therefore, the purpose of the conflict of interest statement is to protect the Association when it is contemplating entering into a transaction and/or arrangement that might benefit the private interest of a member of the Management Team or any other member of the Association.

There is therefore a duty, on members, to disclose the existence of any private and/or financial interest and give full details of the potential or conflict.

Those members of the Management Team not involved (and therefore disinterested) shall consider all the details of the proposed transaction or arrangement, and, after due diligence, they will determine and advise whether a conflict exists and suggest alternative solutions.
